

Nelson Parade REMEDICATION

25 MARCH 2010

Dear Resident,

With the appointment of the Environmental Assessment (EA) consultant, the State Property Authority (SPA) is set to progress planning for the remediation of 7, 9 and 11 Nelson Parade.

The consultant's role is to coordinate the various studies and submit the Environmental Assessment to the NSW Department of Planning for public exhibition and assessment.

EA consultant announced

Award-winning international firm, Parsons Brinckerhoff, has been engaged to prepare the EA report to guide remediation of the Nelson Parade site.

The firm has extensive experience delivering planning approvals to remediate contaminated land for major projects across sectors such as transport, renewable energy and urban development.

Parsons Brinckerhoff will be working closely with SPA and an expert panel consisting of health, environmental, contamination and waste disposal specialists to prepare the EA document.

Given Parsons Brinckerhoff's credentials and extensive expertise, SPA is assured that the best possible outcome for the site will be reached.

SPA will continue to keep stakeholders informed of progress of the EA report, while ensuring residents' concerns are understood and addressed.

Where to from here?

A remediation contractor will be appointed after a tender process. SPA will draw on the successful contractor's significant expertise in the field to assist in the preparation of the Remediation Action Plan (RAP) which addresses the Environment Protection Authority's remediation requirements.

When complete, the EA with supporting studies including the RAP will be submitted to the NSW Department of

Planning for assessment. During this process the EA with supporting studies will be placed on public exhibition for stakeholder comment. Pending the approvals process, it is anticipated that remediation will commence by early 2011.

The ongoing consultation with the community will ensure stakeholders are kept informed of the EA process and what the remediation process will entail.

How do I find out more?

For more information on the remediation process please visit the Nelson Parade Remediation project webpage at www.spa.nsw.gov.au/HunterPde.htm.
